## DETAILED ACTION

### *Drawings*

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the method as claimed in claims 1-15 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-30 rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification fails to describe the method and system shown because, there is no description of the "expert wager input interface", the "novice wager input interface", "selection requirements displayed substantially aligned", "the plurality of options that is selected using the user inputs is highlighted", and a "ticket window".

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 3,4,11,12,13,18,26,27,28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Regarding claims 3 and 18, the phrase "another of the expert wager input interface and

Art Unit: 3713

the novice wager input interface" is unclear and confusing, there is also a lack of antecedent basis for this phrase. Regarding claim 4, the preamble of the claim refers to a system, however the parent claim (claim 3), is a method. It is unclear as to whether the applicant intends to claim a system or a method. Additionally the term "wager selections" in claim 4 lacks antecedent basis. Regarding claims 11 and 26, it is unclear what is meant by the term "participant". Claims 12, 13, 27 and 28 are rejected for their interpretation of the above through their dependencies.

### ***Claim Rejections - 35 USC § 102***

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-4 and 16-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Massaro et al (U.S. Pat. No. 5,535,321). Massaro et al teaches a system requiring multiple user, user interfaces of varying degrees of difficulty, interpretation of the user inputs to determine which degree of difficulty is selected, transferring of user inputs between various forms of the interface. There See the abstract, and Figures 1-6.

7. Claims 5-15, and 20-30, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO 97/09699. See figures 1-50, the abstract, and pages 1-39.

### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a. Rosenfeld (U.S. Pat. No. 4,323,242)-discloses a game in which the user selects one of several difficulty settings for a maze game.
